

History Made Modern

BLVD, originally built in 1910, has been transformed for homeowners who demand conveniences of modern Manhattan design. From the one-story glass curtain wall around the meticulously restored façade to the brand-new fixtures and finishes, BLVD is a perfect residence for contemporary living.

BLVD's two towers offer open layouts to satisfy any lifestyle, from multiple one- to three-bedroom floor plans, some with outdoor space, making it an ideal investment for wherever your New York life will take you. Proximity to the A, B, C, D, 2 and 3 subway lines, nearby parks, restaurants, gourmet groceries, and entertainment options add up to a location as attractive as BLVD itself.
